

Frequently Asked Questions: Online Registration

July 2016

Why online registration?

Online registration will significantly reduce the workload of Scouters across the country. By registering youth online, parents can quickly and easily register their children for great, safe Scouting adventures, without the hassle of chasing down paperwork! Parents can register their children, input the data and ensure a much faster and efficient process. It also allows the registration fee to be paid directly and that all important information, like a youth member's medical information, is compiled and correct.

We understand that some Groups may have challenges getting started with online registration, so we have compiled some frequently asked questions to address questions that parents, registrars or Scouters may have in regards to online registration.

We are encouraging groups to enable online registration for September 1, 2016 registration (Scouting Year 2016-2017). Paper registration will no longer be supported for Scouting 2017-2018.

Questions that parents may have:

How do parents get a tax receipt if they register online?

If you have registered online, then starting September 1st, 2016 you will be able to self-select a tax receipt and print at your desired location. For the 2016 tax year, there may be a modification to the tax code where a printed receipt is not necessary.

How do parents register online if they do not have a credit card?

In September of 2016, we will support various forms of online payment: Interac® transfer, photo check, electronic funds transfer (pay by email) and PayPal™. By having many forms of payment, parents have a variety of options to choose from that suit their needs!

How do parents register online if they do not have Internet access at home?

Certain homes may not have Internet access, but most businesses, community centers, libraries and restaurants do. If Internet is not available at a parent's place of work, they can also ask a family member, friend or neighbour to borrow access to register. Groups can also hold parent registration evenings, and share a laptop among parents who do not have internet access. If Internet access is not available in the Group meeting location, then consider holding your registration night at a location with Wi Fi, such as a library or a community centre. This can be a great way to engage your parents by having a Parent Registration Night in the spring!

It starts with Scouts.

How do parents apply for No One Left Behind (NOLB) funding when registering online?

Parents who wish to apply for NOLB can go through a process that's easier than ever! Parents should begin the NOLB application process prior to registering online. Once their application has been processed, they will be advised whether a NOLB subsidy has been approved and will be provided with a code. When they register their child online in MyScouts, they will enter that code and the amount of the NOLB subsidy will be automatically deducted from their registration fee. The NOLB application process is detailed on [scouts.ca](http://www.scouts.ca) <http://www.scouts.ca/ca/no-one-left-behind-how-apply>.

Does Scouts Canada offer a payment or installment plan for registration fees?

Scouts Canada does not offer a payment plan; however, with our continued commitment to the No One Left Behind Program, most cases of families needing financial assistance are addressed. Groups that offer a monthly or quarterly payment plan will need to pay the Scouts Canada fee by the beginning of the new Scouting Year (September 1st) and make payment arrangements between the Group and parents.

Some parents encounter login issues with MyScouts.

Enhancements are continually being made to MyScouts and the majority of these issues have been addressed. Currently, improvements in managing the parent-child relationship are one of our priorities. Enhancements will be implemented for September 2017 that clarify the parent/child relationship and make it easier for parents to identify all children that are registered. To review the latest updates, visit www.myscouts.ca/ca/techissues.

Parents are encouraged to ensure their email address is up-to-date and consistent with their child's records. All fields should be filled out with correct information so that MyScouts' performance is optimal.

It is recommended that Groups cleanup online profiles of members and parents to ensure that parents profiles have up-to-date information, including their DOB, and that their profile links to their respective child or children.

Is there a discount for multiple youth in the same family?

With the increased funding of No One Left Behind, discounts for multiple children are no longer provided. Families who required financial assistance are asked to follow the NOLB process. <http://www.scouts.ca/ca/no-one-left-behind-guidelines>.

How does a parent submit a signature to make an online registration "official".

If a parent completes their own online registration, when they submit their data it is considered an electronic signature, and a written signature is not required. If the registration is by paper form, the parent's signature must be on the form and the form sent to the Council office for retention. As the paper form is phased out and the online registration becomes the norm, no paper form will be required for retention.

How are refunds processed and what are the refund terms?

There is a new streamlined membership process and the complete details are outlined at <https://help.scouts.ca/hc/en-ca/articles/206448923-Requesting-a-refund>. Please refer to that for complete details. To summarize:

- From May 1 to Sept 30, any refund request received is entitled to 100% refund;
- From September 30th to October 31st, refunds are at 50% of payment received;
- After Nov 1st, no refunds will be issued except under extenuating circumstances;

For registration outside of the above dates, the refund request must be received within 30 days of registration and a full refund will be provided.

Can I use my phone or tablet to register online?

MyScouts is not yet optimized for mobile devices. Although MyScouts may work on certain tablet devices, we highly recommend that you use a computer when registering online.

Questions that Registrars may have:

How do I enable online registration for my Group?

To enable self-registration in the system you will need to:

- Set Group fees;
- File the Group's bank information with Scouts Canada;
- Select 'Yes' to activate online registration in myscouts.ca;
- Set maximum capacities for sections in myscouts.ca; and
- Ensure sections appear in the Find a Group feature.

For more information go to <https://help.scouts.ca/hc/en-ca/articles/202504144-Setup-Online-Self-Registration-and-receiving-payment>

How are Group fees accommodated within online registration?

The Group fees have been extended and will be collected by the online registration system for the 2016-2017 Scouting Year. The Group needs to be set up for online registration in order to have the system collect the Group fee portion. Groups also have the option to collect fees from parents outside the online registration system should they choose to do so. This also provides an opportunity to interact with parents, to present the upcoming year's program and to encourage their participations.

When and how will the Group receive the Group fee portion of online registration?

The Group Fee portion of online registration will be deposited monthly into the group bank account that you provide to us when you enable online registration.

How can I set up a different Group fee for different times of registration?

Group fees are the responsibility of the Groups and only one Group Fee can be in effect at a given time. Should a Group wish to have a different Group fee for different registration periods, it is up to the Group Registrar to modify the fee in MyScouts.

By way of example, a Group could set the Group fee portion for returning members at a discounted rate for May 1 to 16 to stimulate early registration. A different rate can be set for May 16 onwards for those who did not avail of early registration.

How do I move youth up from one Section to the next?

MyScouts enables you to manage the promotion of Scouts from one section to the next and is also programmed to hold a spot during the two-week reserve advanced registration window for returning members. Youth will easily be able to “swim-up” to the next section with this awesome enhancement!

Will my Group bank information be safe?

Absolutely! All information registered in MyScouts is safe and secure. Note that you only need to provide Group bank information if you wish to charge Group fees through MyScouts or if you wish to process any refunds that may be due. If your Group does not charge fees, then direct parents to use online registration and any refunds will be paid directly to the parent.

Will my Group funds be safe?

The National Service Centre only has deposit access to Group bank accounts and this is only to deposit refunds and Group fees. National and Regional Service Centres are not able to withdraw any funds from Group bank accounts. This policy is implemented by all Canadian financial institutions.

What happens if our Group is full and a parent tries to register their child?

If the parent has used the Find-a-Group feature on scouts.ca, they will be provided with the Group contact information:

- If the Section is at capacity due to meeting space restrictions, parents should be advised that they can but put on a waitlist for that Group. They should also be informed that there are other Groups in the Area and that the local Area Support Manager (ASM) can help them find a Group with space. Take down the parents contact information and forward it to your ASM.
- If the Section is at capacity due to lack of Volunteers, parents should be advised that the Section is full based upon the number of Volunteers, and that more parents are being sought to join the volunteer team and make Scouting available to more youth.

Will medical information be safe in MyScouts?

If you have provided medical information in the past, it is already being stored in MyScouts. The online registration form collects the same information as the current paper form. Regardless of where the information is collected, it is stored in MyScouts and our approach to privacy is the same. You can see our privacy policy at myscouts.ca/ca/content/privacy-statement. To ensure the correct medical information is profiled, parents should update their child's medical information every year when they re-register their child online.

How do we register Rovers and their role within a Section?

MyScouts is set up for online registration for Rovers and all Rovers should self-register online. If a Rover registers through the Group, the system will create an invoice for the Rover registration, which will then require a correction. Using online registration will enable the Rover to register as a no fee participant and will not generate an incorrect invoice.

How can a Volunteer (Scouter) opt-out of membership?

With the recently introduced Evergreen membership, all Scouter roles are automatically renewed. During the renewal process, the individual has the opportunity to opt out and end their membership. The Group Registrar also has the ability to end a Volunteer's membership. If neither action happens, the Scouter will remain in MyScouts until any of the conditions of membership have not been met by the prescribed deadline, at which time membership will expire.

General Questions

I'm from an LDS Group, can we use online registration?

In July of 2016, a new process will be introduced whereby parents will be able to enter a coupon code at the time of on-line registration. Your Council will generate the code and distribute them to the stake or Group. By entering the code, the parent does not pay at the time of registration and the fee will be billed to their LDS Stake.

What are the benefits of online registration?

Registering youth online has the potential to significantly reduce the number of hours that Volunteers spend inputting data. Parents can register their children, input the data and ensure a much faster and efficient process. It also allows the registration fee to be paid directly and that all important information, like a youth member's medical information, is compiled and correct. Our environment footprint is also reduced by not using paper!

We do not have a parent registration night.

Then why not consider holding one for the coming year? Groups that have parent registration nights during spring registration find that it provides an ideal opportunity to make parents aware of the exciting adventures their Scouts have participated in throughout the year! Parents who are knowledgeable of their child's personal progression in Scouts, are more likely to re-register their child the following Scouting year. Fall registration nights are an opportunity to make parents aware of what their child can look forward to throughout the coming year and reinforce the value of Scouting. At any time of year, registration nights are a great opportunity to recruit parent helpers and prospective Volunteers (Scouters).

Is online registration intended to eliminate Area collection nights?

Area collection nights can still be held and laptops and tablets can be enabled for each Group attending. With online registration, the end user enters their own information, which greatly increase the accuracy of the data entered while reducing the Registrar's workload.

Why has registration increased to \$200 for the 2016-2017 Scouting Year?

While the National and Council Membership Fee for 2016/17 has been set at \$200, the cost to deliver a consistent, high quality Scouting program across Canada is \$257 once the costs of managing, resourcing and supporting day-to-day operations and program delivery are factored in. We count on revenue from our Popcorn Fundraiser, retail sales and other fundraising activities to bridge the gap between true program cost and the membership fees charged. In past years, Scout Popcorn has contributed \$1.4 million to our operating budget – or \$23 per youth member. Popcorn has a significant impact on our ability to deliver a quality program and to remain cost-competitive.

Who do we contact if we have issues with MyScouts or with online registration?

The primary point of contact for MyScouts support is the [Scouts Canada Help Centre](#) who will respond to your request within two business days.

How do we collect and produce a report on parent skills?

This has been identified as an issue and will be addressed as soon as possible in the work plan for MyScouts enhancements. In the interim, a Parent Resource Survey template has been developed that can be used by Groups to collect parent skills and to identify where parents can be engaged throughout the year to support Group adventures.

<http://www.scouts.ca/sites/default/files/Parent%20Survey%20form.pdf>

Why were no paper forms included in this year's Recruitment Toolkit?

Paper forms are being phased out and this is the last Scouting Year that an electronic template will be available. Parents can print a paper form if desired and hand it into their Group. The Group Registrar must enter all data into MyScouts and then submit the paper form to their Council for retention. Blank paper forms will not be kept at the National or Regional Service Centres.
